Your first bot in 10 minutes

No code, no account with us. You only need a free ChatGPT, Claude or Gemini account.

1. Fill in the Business Card below (5 minutes). This is what makes the bot yours.
2. Pick one bot from this kit. Start with the FAQ Answer Bot.
3. Copy the prompt, replace {BUSINESS_NAME} and paste your Business Card where it says so.
4. Open a new chat in ChatGPT, Claude or Gemini and paste everything.
5. Ask the 3 test questions. Wrong answer? Add the missing fact to your card and try again.
6. To keep it: put the text in a ChatGPT project or GPT, or a Claude project. Or use our free Bot Garage.

The Business Card

```
BUSINESS CARD: use only these facts. Never invent prices, times or availability.
Business name:
Type of business:
Address / area:
Opening hours:          (e.g. Tue-Sat 9-18, closed Sun-Mon)
Services and prices:    (one per line, e.g. Men's cut - 25 EUR - 30 min)
Booking rules:          (e.g. book at least 2 h ahead, cancel 24 h ahead)
How to contact a human: (phone / email / WhatsApp, when)
Languages:              (e.g. French, Arabic (Darija), English)
Never do:               (e.g. confirm bookings, give discounts, give medical advice)
Tone:                   (e.g. warm and short)
If a fact is missing: say you will check with the team and take a message.
```

Golden rules

- The bot only uses your facts. Missing fact = "I will check with the team".
- It never confirms bookings, discounts or availability by itself.
- No medical, legal, tax or financial advice.
- Customers may know they talk to an AI. Offer a human when they ask.
- Start in draft mode: the bot writes, you check and send.
